

Happy St Patricks Day

An Irish Blessing
May your troubles be less
And your blessings more,
And nothing but happiness
Come through your door.

17 March 2019

*St. Patricks Day is here again
It's time to celebrate.
He came to Ireland as a slave,
Who could guess his fate.*

*He herded sheep on that fair isle,
But then made his escape.
When he returned his mission was
The gospel to relate.*

*The Irish heard and they believed,
And thought the good news great.
Thankful still for all he did,
St. Patrick we do fete.*

*Love,
Sweet Betts/Ole Dan*
